Washington, DC 20554

Dear The Federal Communications Commission,

Please do not change the flat fees on our TracFone. I have two in college in my household and cannot afford a cell phone at this time. I strictly have the TracFone so my family can find me in emergency. It would be an unreasonable tax on me to have to pay the same as others when I hardly use the thing. It is such a necessary part of my life though.

Please consider the little guy in this decision.

Thank you so much

Dewis Tillery

Sincerely,

Dewis Tillery
